(72) Inventors: JONES, John, E.; 43 Long Meadow, Winnetka, IL 60043 (US); JONES, William, J.; 280 Polect. Barrington, IL 60010 (US); MENNIE, Douglas, U.; 229 Wood Street, Barrington, IL 60010 (US); JONES, Paul, A.; 1618 Meadow Lane, Glenview, IL 60025 (US).			
(74) Agent: RUPINSILL, Stephen, G.; Arnold, White & Durkee, P.O. Box 4433, Houston, TX 77210 (US).			

(54) Title: AN AUTOMATED DOCUMENT PROCESSING SYSTEM USING FULL IMAGE SCANNING

(57) Abstract

A document processing system comprises an input receptacle for receiving documents. A transport mechanism receives the documents from the input receptacle and transports the documents past a full image scanner and a discrimination unit. An output receptacle receives the documents from the transport mechanism after being transported past the full image scanner and the discrimination unit. The full image scanner includes means for obtaining a full video image of said documents, means for obtaining an image of a selected area of said documents, and means for obtaining information contained in said selected area of said document. The discrimination unit includes means for determining the authenticity of said document. A system controller directs the flows of documents over the transport mechanism.
